SA/C/OS/TR

Attached Memorandum

1. I am resubmitting my proposal of a United States Intelligence Staff College. In accordance with one of the suggestions you made for introducing this, I am addressing the memorandum to the Executive Secretary, USIB. In line with a number of suggestions I have had from C/IS and C/SIC, I have cut the total time down from 7-8 months to about 4 months, and cut down the number of units of instruction from 7 to 4 by expanding the conceptual basis for the individual units.

2. I feel that from a budgetary point of view the timing for introducing this may be wrong. However, from the viewpoint of consolidating and improving Agency personnel capability in our present "belt-tightening", timing could not be better.
